Job Description – CAD Technician

Are you a skilled CAD Technician looking for your next opportunity?

Caxton Façades is looking for a motivated and detail-focused CAD Technician to join our design team based at Stadium Estate, Derby.

This is an exciting opportunity to become part of a specialist façades business, supporting the delivery of high-quality building façade solutions across a range of projects. Working closely with our Senior Design Manager and wider project teams, you will play an important role in turning design concepts into accurate, coordinated and practical technical drawings.

The Role

As our CAD Technician, you will be responsible for producing and maintaining high-quality 2D technical drawings and supporting the development of 3D models and façade detailing.

You will work across a variety of façade systems, including:

- Stofix Brick Slip Cladding
- Rainscreen cladding and aluminium detailing
- Curtain walling
- Window and glazing systems
- 3D mock-ups and technical details

You will also work closely with architects, structural engineers, project managers and other stakeholders to ensure designs are coordinated, accurate and suitable for installation.

What You'll Be Doing

- Producing accurate 2D CAD drawings, layouts and technical details.
- Updating drawings to reflect design changes and client feedback.
- Supporting the coordination of façade designs with other disciplines.
- Identifying and helping resolve design clashes or inconsistencies.
- Maintaining drawing registers, revisions and document control.
- Interpreting architectural drawings, specifications and schedules.
- Working to project deadlines and supporting successful project delivery.
- Contributing ideas to improve drawing standards and design processes.

What We're Looking For
We are looking for someone who is technically minded, organised and takes pride in producing accurate, high-quality work.

Ideally, you will have:

- Experience working in a CAD Technician or similar technical design role.
- Good working knowledge of 2D CAD software.
- The ability to interpret technical drawings and specifications.
- Strong attention to detail and a methodical approach.
- Good communication and teamwork skills.
- The ability to manage your workload and meet deadlines.
- A willingness to learn and develop technical knowledge.

Experience within the façade, construction, architectural or building envelope sectors would be advantageous.

Why Work for Caxton Group?

At Caxton Group, we recognise that our people are our greatest asset. We want to create a workplace where individuals feel valued, supported and encouraged to develop their skills and careers.

Joining Caxton Group means:

- **Be part of a growing business:** An opportunity to contribute to the continued development and success of our Group.
- **Make a difference:** Your work will directly contribute to the quality and successful delivery of exciting projects.
- **Develop your career:** We encourage learning, professional development and opportunities to build your technical expertise.
- **Work collaboratively:** Be part of an experienced team where knowledge is shared and everyone's contribution matters.
- **Feel valued:** We believe in creating a positive working environment built on trust, respect and teamwork.

Our values underpin everything we do:

- **Trust** – Building strong relationships and having confidence in one another.
- **Respect** – Valuing the contribution of every individual.
- **Integrity** – Doing the right thing and taking pride in our work.
- **Passion** – Taking pride in what we do and striving to deliver the best.
